Hi Tori, that's really weird! I've attached it again. I hope it works this time.

Hey Claudia, just got a chance to review R10 comments and for me, this document is blank. Wanted to check in to see if I'm missing something in terms of format.

Hi Tori, I have attached our comments on the draft 2021 K-Falls EE demo. Thank you for your patience while I was out. On the bright side, that allowed time for Sarah Waldo to (b) (6) and review the monitoring section. However, please note that Sarah was not able to check the values against AQS data. Please let me know if you have any questions or would like to meet to discuss.

Thank you!
Claudia

Hi Tori, I apologize for the delay. I am working on it. I had to (b) (6) and I'm behind. I'm glad you have plenty to do, but I hope to send you our comments within a week.

Thank you!
Claudia

Subject: 2021 Exceptional Events Draft

Hi Claudia,
I wanted to check in about the status of the 2021 EE Report draft I sent last month.
I have plenty to do right now with the proposed strengthening of the PM2.5 NAAQS so no need to rush on my account—I just wanted to check in! Thanks
